

Stonecraft Custom Built Green Homes

Building Bonds of Trust & Friendship

"The outcome of our experience in building with Stonecraft was not only a pleasurable experience of building a beautiful well-crafted, solid built energy efficient home, but in the building of a bond of trust and friendship that will last a lifetime" E & D Wells

Commitment To Building Energy Efficient / Green Homes.

"Working with Danesh (and the whole Stonecraft/Imagine Inc. family) was a pleasure from start to finish.

We've developed a friendship to last beyond the building process. We met with several builders before finding Danesh and we knew immediately we'd found the person to build our home, because of his commitment to building energy efficient/green homes. ...we could not have asked for a better experience. Our many questions and concerns were always given immediate attention and we felt like our home was his number one priority. Thank you so much for building our dream home! J & J. Moore

Knowledgeable & Honest

"Danesh is very knowledgeable and honest."

J & D Long

Builds with Heart & Passion

"It was a pleasure building with Stonecraft Construction, after interviewing a dozen others we finally found a builder who builds from the heart and with a passion."

The Davis Family.
